## 2R BARRIER + KERB

WITH ITS EASY-TO-ASSEMBLE DESIGN, THIS BARRIER IS PERFECT FOR SAFEGUARDING STRUCTURES, GOODS, AND MACHINERY FROM MEDIUM-HEIGHT VEHICLE IMPACTS IN BUSY INDOOR AND OUTDOOR AREAS. REINFORCED WITH A KERB BARRIER, IT ALSO ORGANIZES AND DEFINES SPACES WHILE OFFERING EXTRA PROTECTION AGAINST COLLISIONS FROM FORKLIFT FORKS AND KNIVES WITH ITS ADDED RESTRICTIVE TYPE PROTECTION BARRIER.

## STRONG AND LIGHTWEIGHT

Thanks to its unique chemical formula, our barrier surpasses steel barriers in both strength and weight. It is significantly lighter while maintaining its exceptional durability.

## MODULAR

Thanks to its modular design, our barrier effortlessly adapts to the changing needs of your facility. This flexible solution is extremely easy to install, assemble, disassemble, relocate and organize.

## NO CORROSION

Unlike steel barriers, our barriers are made of durable polymer materials, making them unaffected by environmental elements such as sunlight and rainwater.

## NO PAINT AND MAINTENANCE NEEDED

Unlike Raysan's steel barriers that require regular painting and maintenance, our self-colored structure eliminates the need for these processes. Even if the barrier is scratched due to an impact, its surface retains its original color without any change.

## ULTRAVIOLET RESISTANT

Our barriers are designed with exceptional resistance to UV radiation. Their chemical structure remains intact even after prolonged outdoor use, ensuring long-term durability.

## ANTIBACTERIAL

Our barriers have an exceptional chemical formula that prevents them from having any chemical reaction with the substances they come into contact with.
