# Flexible Barrier POLYGUARD PuffyGuard

### 2 2R BARRIER

OUR 2R FLEXIBLE BARRIERS, WITH THEIR MEDIUM HEIGHT AND EASY—TO—ASSEMBLE DESIGN, ARE PERFECT FOR PROTECTING STRUCTURES, GOODS, AND MACHINERY FROM MEDIUM—LEVEL VEHICLE IMPACTS IN BUSY INDOOR AND OUTDOOR ENVIRONMENTS. IDEAL FOR PARKS, RAMPS, AND OPEN EDGES, THEY ALSO HELP ORGANIZE AND DEFINE SPACES WHILE PROVIDING RELIABLE PROTECTION AGAINST CONSTANT WEAR AND TEAR.

#### **STRONG AND LIGHTWEIGHT**

Thanks to its unique chemical formula, our barrier surpasses steel barriers in both strength and weight. It is significantly lighter while maintaining its exceptional durability.

#### **MODULAR**

Thanks to its modular design, our barrier effortlessly adapts to the changing needs of your facility. This flexible solution is extremely easy to install, assemble, disassemble, relocate and organize.

#### **NO CORROSION**

Unlike steel barriers, our barriers are made of durable polymer materials, making them unaffected by environmental elements such as sunlight and rainwater.

#### NO PAINT AND MAINTENANCE NEEDED

Unlike Raysan's steel barriers that require regular painting and maintenance, our self-colored structure eliminates the need for these processes. Even if the barrier is scratched due to an impact, its surface retains its original color without any change.

#### **ULTRAVIOLET RESISTANT**

Our barriers are designed with exceptional resistance to UV radiation. Their chemical structure remains intact even after prolonged outdoor use, ensuring long-term durability.

#### **ANTIBACTERIAL**

Our barriers have an exceptional chemical formula that prevents them from having any chemical reaction with the substances they come into contact with.
