Flexible Barrier
POLYGUARD
PuffyGuard

2R PEDESTRIAN BARRIER

OUR 2R PEDESTRIAN BARRIER IS DESIGNED TO SAFELY SEPARATE PEDESTRIANS FROM MOVING VEHICLES AND WORKPLACE HAZARDS, ENSURING A SECURE ENVIRONMENT. SUITABLE FOR BOTH INDOOR AND OUTDOOR AREAS WITH LIGHT VEHICLE TRAFFIC, IT OFFERS RELIABLE PROTECTION AND ENHANCES SAFETY. ITS DURABLE DESIGN AND EASY INSTALLATION MAKE IT A PRACTICAL SOLUTION FOR BUSY INDUSTRIAL AND COMMERCIAL SPACES.

STRONG AND LIGHTWEIGHT

Thanks to its unique chemical formula, our barrier surpasses steel barriers in both strength and weight. It is significantly lighter while maintaining its exceptional durability.

MODULAR

Thanks to its modular design, our barrier effortlessly adapts to the changing needs of your facility. This flexible solution is extremely easy to install, assemble, disassemble, relocate and organize.

NO CORROSION

Unlike steel barriers, our barriers are made of durable polymer materials, making them unaffected by environmental elements such as sunlight and rainwater.

NO PAINT AND MAINTENANCE NEEDED

Unlike Raysan's steel barriers that require regular painting and maintenance, our self-colored structure eliminates the need for these processes. Even if the barrier is scratched due to an impact, its surface retains its original color without any change.

ULTRAVIOLET RESISTANT

Our barriers are designed with exceptional resistance to UV radiation. Their chemical structure remains intact even after prolonged outdoor use, ensuring long-term durability.

ANTIBACTERIAL

Our barriers have an exceptional chemical formula that prevents them from having any chemical reaction with the substances they come into contact with.

EXPERIENCE UNPARALLELED STRENGTH WITH OUR ADVANCED POLYMER, CRAFTED FROM A PREMIUM BLEND OF SOPHISTICATED POLYOLEFINS AND RUBBER ADDITIVES. THIS EXCLUSIVE COMPOSITION DELIVERS UNMATCHED DURABILITY AND FLEXIBILITY. OUR CUTTING-EDGE ENGINEERING PROCESS REORIENTS THE MOLECULAR STRUCTURE DURING MANUFACTURING, ENDOWING THE BARRIER WITH A UNIQUE BUILT-IN MEMORY. THIS INNOVATIVE FEATURE ENSURES THAT THE BARRIER RECOVERS COMPLETELY AFTER IMPACTS, MAINTAINING PEAK PERFORMANCE AND RELIABILITY.

TETA

Post Dimension [D1]	Post Height [H]	Rail Dimension [D2]
Ø125 mm	1100 mm	50 x 100 mm
Rail Length Range [L1]	Barrier Length MAX [L2]	Impact Zone [Z]
800 mm - 2500 mm	2625 mm	600 mm
