BR PEDESTRIAN EARRER - KERB

OUR 3R PEDESTRIAN BARRIER IS SPECIFICALLY DESIGNED TO SEPARATE PEDESTRIANS FROM MOVING VEHICLES AND WORKPLACE HAZARDS, PROVIDING A SAFER ENVIRONMENT. IDEAL FOR BOTH INDOOR AND OUTDOOR AREAS WITH LIGHT VEHICLE TRAFFIC, IT ENSURES RELIABLE PROTECTION AND ENHANCED SAFETY. ITS ROBUST AND MODULAR DESIGN ALLOWS FOR EASY INSTALLATION AND ADAPTABILITY TO VARIOUS LAYOUTS, MAKING IT A VERSATILE SOLUTION FOR HIGH-TRAFFIC SPACES.

EXPERIENCE UNPARALLELED STRENGTH WITH OUR ADVANCED POLYMER, CRAFTED FROM A PREMIUM BLEND OF SOPHISTICATED POLYOLEFINS AND RUBBER ADDITIVES. THIS EXCLUSIVE COMPOSITION DELIVERS UNMATCHED DURABILITY AND FLEXIBILITY. OUR CUTTING-EDGE ENGINEERING PROCESS REORIENTS THE MOLECULAR STRUCTURE DURING MANUFACTURING, ENDOWING THE BARRIER WITH A UNIQUE BUILT-IN MEMORY. THIS INNOVATIVE FEATURE ENSURES THAT THE BARRIER RECOVERS COMPLETELY AFTER IMPACTS, MAINTAINING PEAK PERFORMANCE AND RELIABILITY.

STRONG AND LIGHTWEIGHT

Thanks to its unique chemical formula, our barrier surpasses steel barriers in both strength and weight. It is significantly lighter while maintaining its exceptional durability.

MODULAR

Thanks to its modular design, our barrier effortlessly adapts to the changing needs of your facility. This flexible solution is extremely easy to install, assemble, disassemble, relocate and organize.

CORROSION-FREE

Unlike steel barriers, our barriers are made of durable polymer materials, making them unaffected by environmental elements such as sunlight and rainwater.

NO PAINTING OR MAINTENANCE REQUIRED

Unlike Raysan's steel barriers that require regular painting and maintenance, our self-colored structure eliminates the need for these processes. Even if the barrier is scratched due to an impact, its surface retains its original color without any change.

UV-RESISTANT

Our barriers are designed with exceptional resistance to UV radiation. Their chemical structure remains intact even after prolonged outdoor use, ensuring long-term durability.

ANTIMICROBIAL

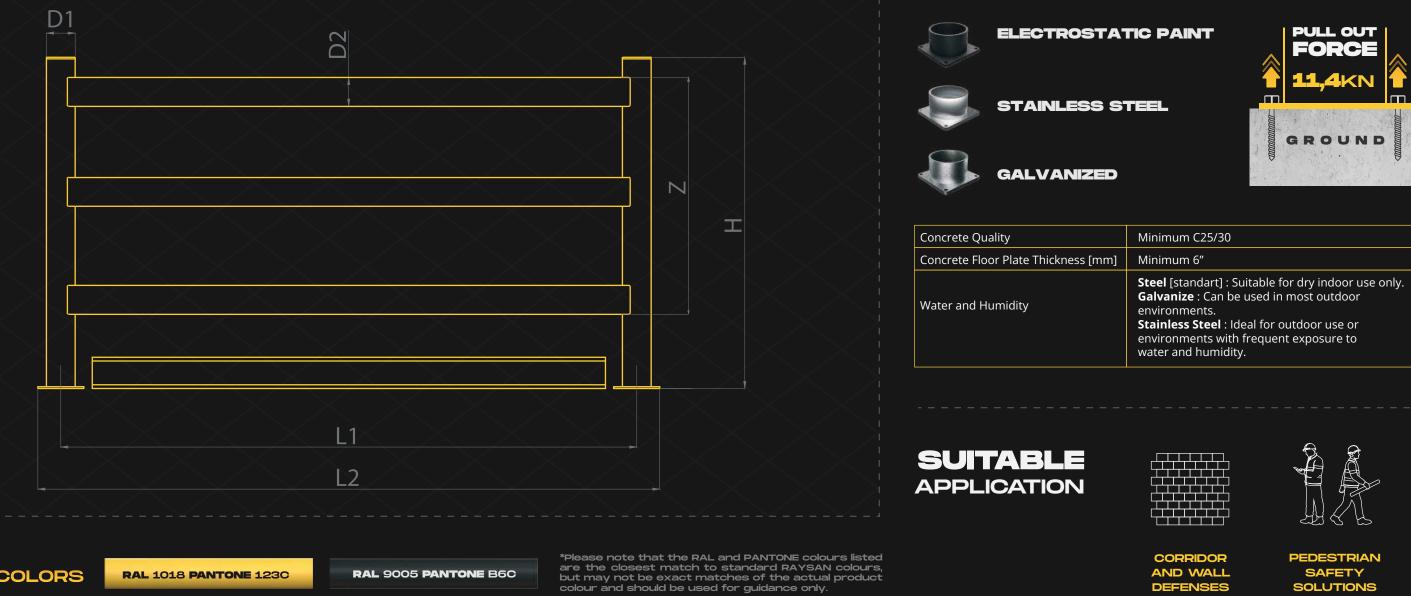

Our barriers have an exceptional chemical formula that prevents them from having any chemical reaction with the substances they come into contact with.

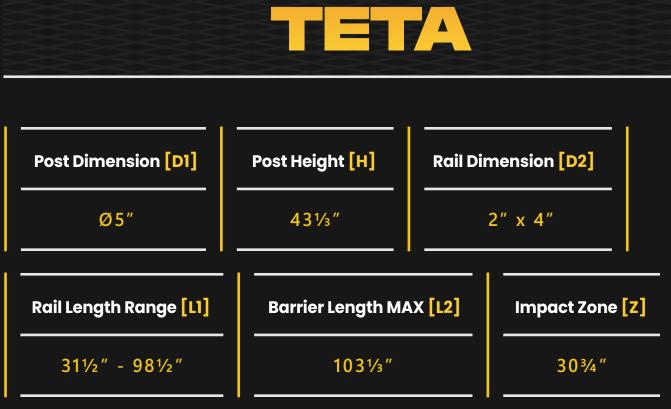

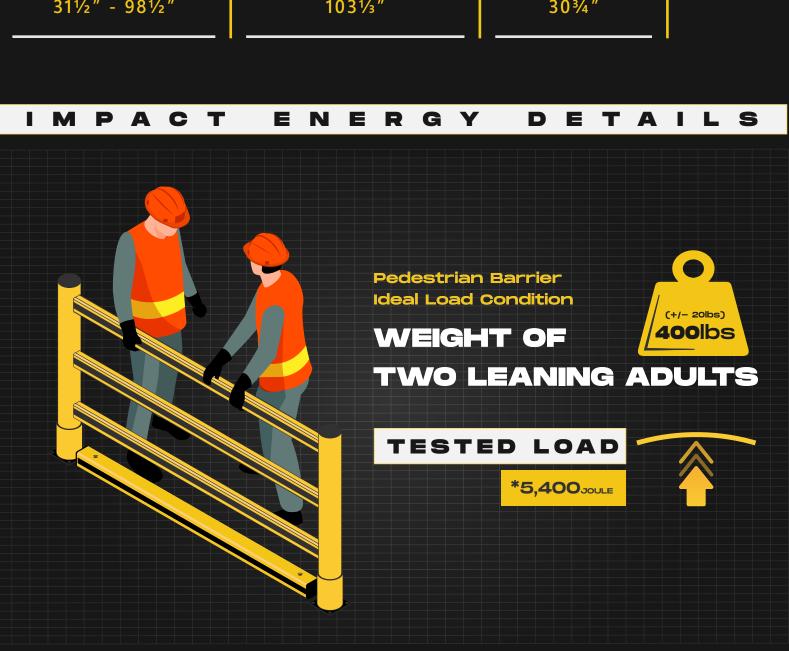

TECHNICAL DRAWING

are the closest match to standard RAYSAN colours, but may not be exact matches of the actual product colour and should be used for guidance only.

rete Quality	Minimum C25/30
rete Floor Plate Thickness [mm]	Minimum 6"
r and Humidity	 Steel [standart] : Suitable for dry indoor use only. Galvanize : Can be used in most outdoor environments. Stainless Steel : Ideal for outdoor use or environments with frequent exposure to water and humidity.

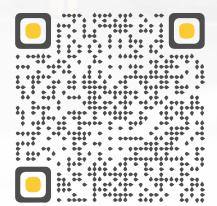

PEDESTRIAN SAFETY SOLUTIONS

*90° Impact on Mid Rail of Maximum Post Centres *Results are Reflecting instantaneous Impact Values *Does not Provide Resistance to Sharp Impacts
